BOUNDERS OF AMERICA (BOA)

BOA is a not-for profit organization formed in 1991 to promote camaraderie, pride of ownership, and use of our Bounders for pleasure. BOA is an international organization with US and Canadian chapters.

BOA has a vast range of experience among its members – those who have been to Alaska, Canada and Mexico - those who have been "full-timing" for years and those who use their Bounders only on weekends. This "membership knowledge base" is BOA's most valuable asset. You can learn of the many changes, modifications and enhancements members have made to their Bounders; learn where to go (and not to go); and most of all you'll develop lasting friendships and experience a sense of cooperation among members. Whether you've a first time or a long term Bounder owner, you will enjoy your Bounder more by joining BOA and a local Chapter.

Once a BOA member, you'll receive a bimonthly newsletter providing 1) the schedule of national and chapter rallies which you may attend and 2) a broad range of information of interest to Bounder owners. BOA has international rallies that are hosted by one of the BOA chapters and are typically attended by 250 or more Bounder owners. Rallies provide for informative seminars and ample social opportunities for you to exchange information and ideas with other Bounder owners. Technical representatives of the manufacturers whose products are in your Bounder are frequently present to provide technical assistance. If you have a problem with your Bounder, there's a good chance you'll be able to get it corrected at a BOA rally. And yes, you'll enjoy great food and entertainment!

The "heart and soul" of BOA is chapter membership and the rallies held by all the individual chapters throughout the camping season. Chapter rallies are typically 3 or 4 days long, frequently over a weekend and usually located within an easy day's drive. Chapter rallies vary from potluck dinners and card playing to tours and dining out, depending on the interests of the rally host. If you are traveling in an area where a chapter is having a rally, you're invited to attend and see the advantages of joining a chapter.
